

# Why Pay Tribute to England?

Money invested in English  
Companies helps to make  
Great Britain the Dominant  
World Power and enables  
her to keep Ireland, India  
and China in subjection.

AMERICAN IRISH-LIBERTY LEAGUE

794 MISSION STREET  
NEAR FOURTH

SAN FRANCISCO, CALIFORNIA

## **SUBSIDIZING THE BRITISH GOVERNMENT**

Do you know that when you invest in an English Bank, or in an English Insurance or Assurance Company, that you are directly subsidizing the British Government?

Under English law all banks and insurance companies are compelled to invest a certain proportion of their capital in Government bonds, so that every dollar that is invested in these companies is applied in part to the purposes of the British Government.

## **EFFECT ON SUBJECT NATIONS**

It is money from these sources that enables England to maintain armies of invasion in Ireland and India, that buys tanks and armoured cars and machine guns to wreck Irish towns and factories, and enables her to maintain the greatest fleet in the world.

## **DISCRIMINATION AGAINST AMERICAN SHIPPING**

It is money from these sources that prevent American ships from carrying on their legitimate trade through the Irish ports, and that subsidizes an army of spies in America and suborns part of the American press in England's interest.

## **RESULT**

Every dollar invested in these companies is a dollar spent to make Great Britain the dominant world power, and it is as humiliating to this country as to pay tribute to a foreign government.
